Dear Concession Program Manager,

It our pleasure and honor to write this letter of support for The Volcano Project (TVP) in its bid for the Volcano House concession.

As a company dedicated to sustainability and developing renewable natural resources, AACT is impressed by TVP's own commitment to sustainability and to preserving the unique and rare ecosystems that make up Hawai'i Volcanoes National Park. Every part of TVP has been carefully and thoughtfully designed with the intention of reducing its carbon footprint and TVP's environmental impact, in keeping with the Hawai'i Clean Energy Initiative and the Zero Waste Initiative.

TVP's enthusiastic dedication to the environment, to sustainability, and to the Hawaiian culture is both heartening and motivating. We are proud to be associated with TVP and look forward to having the opportunity to work with TVP and help make their vision a reality.

On a personal note, I have known David Donald and Anna Lee for many years, and have worked with David professionally. I know first-hand David's ability to successfully complete complex and intricate projects on-time and on-budget. I am certain that selecting TVP for the Volcano House concession will reflect positively on the National Park Service.

Sincerely yours,

Michael F. Smith, President
